UltraTape Industries Announces SubZero Tapes and Labels

SALEM, OREGON March 7, 2013 UltraTape Industries, a division of Delphon, and the premier supplier of Cleanroom tapes and labels announces its SubZero tape and label products designed specifically for application in below freezing conditions.

The proprietary acrylic adhesive in UltraTape's Sub-Zero tapes and labels bonds to surfaces at below freezing temperatures. The face stock is comprised of a durable vinyl with an added clear overlaminated protective layer. The SubZero tapes and labels are an ideal solution for long term floor and equipment marking in below freezing environments where it is nearly impossible to apply paint or standard adhesive products.

UltraTape's SubZero product line is available in a wide selection of colors, prints, shapes, and sizes and can even be customized to fit the exact specification of an application.

Background:

UltraTape

UltraTape, founded in 1992 and purchased by Delphon in 2007, manufactures particle-free, residue-free adhesive tapes and labels for the Semiconductor, Pharmaceutical, Aerospace, Medical and Electronics industries. UltraTape products are ISO, REACH and RoHS compliant.

About Delphon:

UltraTape is a division of Delphon. Through its divisions, Gel-Pak, Quik-Pak, TouchMark, and UltraTape along with a worldwide sales and distribution network, Delphon provides materials and services for high value technology components and leading edge medical devices. www.delphon.com
